ENVIRONMENTAL POLICY

White Bay 6 Marine Park is a marine refuelling, boat storage and vessel service facility located at Berth 6, White Bay. The facility aims to provide quality services and infrastructure with minimal environmental impact. White Bay 6 recognises the risks associated with operating near the marine environment and see our environmental responsibility as integral to the way we do business.

White Bay 6 Marine Park adopts industry best practice dedicated to minimising impacts to the environment and preventing harm to our employees, customers and communities.

To achieve our vision, White Bay 6 is committed to:

- Complying with all laws, regulations, applicable standards and codes of practice, and encouraging employees and contractors to seek opportunities to operate beyond compliance while at the facility.
- Implementing an integrated management system (Environmental, Health, Safety and Quality) to ensure environmental compliance requirements are met;
- Providing adequate resources to implement and maintain this policy;
- Undertaking operations to prevent pollution and protect the environment;
- Developing a shared sense of responsibility for sustainability and environmental management from top management through to employees, customers, suppliers and contractors;
- Promoting awareness and commitment to environmental management and sustainability among employees, customers, suppliers and contractors;
- Minimising construction and operational related impacts on the surrounding environment and community, including those related to noise, air and water pollution.
- Minimising the use of materials and resources and the generation of waste in all operations; and
- Identifying and reviewing environmental risks to ensure compliance with our environmental commitments and achieve continuous improvement in our environmental performance.
